Listing of Agencies, County in Which Located, and Population Served*

* Adult Treatment Expansion patients (SSI, ABD, HEN, PW, TANF, Medical Assistance clients), can be treated at any residential agency that provides the level of care needed by the client and accepts public funding for services. After completing an assessment and determining the level of care needed, please contact that agency directly with any referrals for residential treatment to make arrangements for admission.

(Click the name of the program to be taken to that programs information)

Adult Recovery House: 0	Youth Recovery House: 0
Adult Long-Term Residential: 20 (15.26 of which are publicly funded)	

Funding Sources Accepted:

ADATSA, Treatment Expansion, CJTA

Client Focus

All chemically dependent individuals over 18 years of age

Specific Strengths of Agency

Therapeutic Community Environment

Specific Admission Criteria

ADATSA/TANF approval/referral.

Specific Admission Exclusions

Clients are considered on a case-by-case basis.

Clients the Program Will Consider With Case Consultation

Sex Offenders

Other Services Available

Adult basic education classes.

Brief Description of Treatment Philosophy

We believe that the treatment process for each patient must be of sufficient duration and intensity to allow the individual to explore themselves in depth. It must also provide for support upon completion of the initial treatment program.

Nicotine Recovery Services

Smoking is only allowed outside; at least 25 feet from any public exit/entry. We encourage and assist patients and staff in obtaining nicotine replacement therapy (NRT). This is performed by providing the Tobacco Quitline information to interested parties. Once the Quitline has been consulted, they may send NRT directly to patients.

Adult Long-Term Residential: 0	PPW: 12 Women, 6 Children

Funding Sources Accepted:

Medicaid, TANF, PPW, Insurance and Private Pay
--

Client Focus

Long-term treatment for chemically dependent women who are pregnant or with young children in their care. Specialize in women with personality disorder, backgrounds of trauma, and involved with CPS. DSHS Licensed therapeutic day care program six days a week for infants and children up to age 5 in residence with the mother.

Specific Strengths of Agency

Treatment includes not only traditional CD treatment and 12-step orientation, but also Dialectical Behavior Therapy and mental health counseling. Smoking cessation program includes hypnotherapy as well as pharmacological aids.

Specific Admission Criteria

Must be able to climb stairs, as our buildings are two-stories. Must understand that smoking is not allowed and smoking cessation is a part of the treatment program.

Specific Admission Exclusions

Must be physically and mentally able to participate in treatment.

Clients the Program Will Consider With Case Consultation

Will take women on methadone once dose is stabilized. Will consider women on psychotropic medications.

Other Services Available

Case-managed transitional housing following discharge from treatment is available, and planning begins while the woman is still actively engaged in residential treatment. Co-occurring outpatient support groups (MICA) co-facilitated with local mental health center. Dual disorder intensive outpatient treatment. On-site detox facility for preadmission detoxification.

Brief Description of Treatment Philosophy

Chemical dependency is a disease treated by abstinence from alcohol and other mood-altering drugs. The goal of our treatment is to provide the individual with tools for self-awareness and clean and sober living that will support the patient after they have completed the residential treatment experience. Both group and individual counseling provide opportunities for patients to come to understand addiction as a disease and to become aware of the triggers that could lead them to relapse.

Treatment of the family is important to breaking the dysfunctional relationships that become established during active addiction, so families are encouraged to participate in our weekend family education and counseling sessions. Mental health counseling is available as an optional component of the program for those women who also have psychological issues, including family of origin and trauma. Familiarity with and long-term use of self-help recovery support groups is also a goal of treatment.

Nicotine Recovery Services

Evergreen Manor is a tobacco-free environment. We offer nicotine abuse/addictions supports including: nicotine patches and gum, when available (only for those on Title XIX); hypnosis, smoking cessation group, therapeutic milieu where nicotine results in punishment (writing an essay about nicotine when caught smelling of smoke). Our policy for nicotine use by staff is that smoking isn't allowed within 2 blocks of the facility.

Funding Sources Accepted:

Medicaid, TANF, PPW, Insurance and Private Pay
--

Client Focus

The co-occurring disorders program will provide up to six months of declining intensity residential treatment for pregnant or parenting women with significant mental health issues. The program will not serve seriously mentally ill but will accept women with mood disorders, personality disorders, and post-traumatic stress disorders. Potential patients on medications must be sufficiently stabilized to participate in all phases of the treatment program. Chemical dependency treatment will be supplemented with regular onsite mental health counseling and parenting training. Specialize in women with personality disorder, mood disorders, backgrounds of trauma, and involved with CPS. DSHS Licensed therapeutic day care program six days a week for infants and children up to age 5 in residence with the mother.

Specific Strengths of Agency

Long-term treatment regimen includes not only traditional CD treatment and 12-step orientation, but also focused mental health counseling and Dialectical Behavior Therapy. Specialize in women with mood and personality disorders, and backgrounds of trauma. Work closely with CPS. Parenting education in group, individual, and experiential settings. Will transport resident for daily methadone doses. Smoking cessation program includes hypnotherapy as well as pharmacological aids.

Specific Admission Criteria

Must be able to climb stairs, as our buildings are two-stories. Must understand that smoking is not allowed and smoking cessation is a part of the treatment program.

Specific Admission Exclusions

Must be physically and mentally able to participate in treatment.

Clients the Program Will Consider With Case Consultation

Will take women on methadone once dose is stabilized. Will accept women stabilized on psychotropic medications when able to fully participate in treatment activities.

Other Services Available

Case-managed transitional housing following discharge from treatment is available, and planning begins while the woman is still actively engaged in residential treatment. Co-occurring outpatient support groups (MICA) co-facilitated with local mental health center. Dual disorder intensive outpatient treatment also provided in outpatient. On-site detox facility for preadmission detoxification.

Brief Description of Treatment Philosophy

Chemical dependency is a disease treated by abstinence from alcohol and other mood-altering drugs. The goal of our treatment is to provide the individual with tools for self-awareness and clean and sober living that will support the patient after they have completed the residential treatment experience. Both group and individual counseling provide opportunities for patients to come to understand addiction as a disease and to become aware of the triggers that could lead them to relapse.

Treatment of the family is important to breaking the dysfunctional relationships that become established during active addiction, so families are encouraged to participate in our weekend family education and counseling sessions. Mental health counseling is available as an optional component of the program for those women who also have psychological issues, including family of origin and trauma. Familiarity with and long-term use of self-help recovery support groups is also a goal of treatment.

Nicotine Recovery Services

Evergreen Manor is a tobacco-free environment. We offer nicotine abuse/addictions supports including: nicotine patches and gum, when available (only for those on Title XIX); hypnosis, smoking cessation group, therapeutic milieu where nicotine results in punishment (writing an essay about nicotine when caught smelling of smoke). Our policy for nicotine use by staff is that smoking isn't allowed within 2 blocks of the facility.

PPW and ADATSA

Specific Strengths of Agency

Job training, diverse and stable staff with many years of commitment to our agency. Treatment activities provided (groups/1-1 counseling) far exceed the requirements.

Specific Admission Criteria

18 years or older, ADATSA eligible, drug or alcohol addiction

Specific Admission Exclusions

Sex offenders; Arsonists; Violent criminal history (depends on severity).

Clients the Program Will Consider With Case Consultation

Borderlines; Antisocials; Bi-Polar; Anxiety disorders; Depression. Patients are allowed to take antidepressant drugs, anti-anxiety or meds for bi-polar. We do not allow patients to take sedating drugs or sleep-aids or anti-psychotics.

Other Services Available

Job training, GED preparation, Outpatient, Vocational counseling, Therapeutic childcare, Parenting classes and counseling.

Brief Description of Treatment Philosophy

A team of professionals and recovering addicts skilled in reality therapy confront the patients' maladaptive attitudes and behaviors. The patients are believed to change their negative behaviors by practicing positive behavior until it is internalized. We look into issues that may have been a contributing factor to drug use. Patients learn daily living skills in a family atmosphere. (Therapeutic community)

Nicotine Recovery Services

At Genesis House, patients are allowed smoke breaks at designated times in a designated area. Patients are not allowed to use chewing tobacco. We use Free & Clear nicotine patch, and have stop smoking groups for patients who want to discontinue tobacco use.

Funding Sources Accepted:

ADATSA, Treatment Expansion, Private Pay, Insurance

Client Focus

Adults in general and Adults who are Deaf or Hard-of-Hearing
--

Specific Strengths of Agency

Lifeline employs a broad range of professionals, including full time psychiatric services, medication management, counseling staff includes those with advance degrees in counseling who work as part of a team in providing quality treatment services. Agency staff members are committed to eliminating the stigma associated with chemical dependency and mental illness. Facilities are new and are co-located in Community health center with other social service providers.

Specific Admission Criteria

Negative TB test required prior to admission.
Patients with positive TB test must provide a proof of treatment or conformation of not being infectious by a medical professional (chest x-ray will be required in most cases).
DSM-IV-TR, or its successor, diagnosis of alcohol or other drug dependence.
Applicants must meet ASAM PPC, or its successor, for inpatient treatment.
Patients with medical or mental health issues controlled by medications must have sufficient supply of medications for the duration of treatment.

Specific Admission Absolute Exclusions

Medical problems beyond scope of care.
Psychiatric Issues beyond scope of care
Patients not able to provide for self-care (e.g., bathing, toileting, getting into or out of bed, feeding, etc.).
Clients with history of fire starting
Level 3 sex offenders.

Clients the Program Will Consider With Case Consultation

Co-morbid mental and substance abuse disorders, level 1 sex offenders.

Other Services Available

Acute detoxification; intensive outpatient and outpatient for adults and specialty services for women, offenders and Deaf or Hard-of-Hearing; outpatient co-occurring treatment for substance abuse and mental disorder(s); mental health treatment, case management, and medication management.

Brief Description of Treatment Philosophy

Lifeline agrees with the 1987 resolution of the American Medical Association that states that all chemical dependencies are diseases. Chemical dependency is a treatable illness that affects individuals as well as their families. While not curable, alcoholism and other drug addictions are treatable. We subscribe to a holistic approach in the treatment of chemical dependency. The central goal of all chemical dependency treatment programs operated by Lifeline is the goal of abstinence. With proper assessment and referral to appropriate treatment modalities, by abstaining from psychoactive substances, and by inclusion in support programs, folks who suffer from alcohol dependence and other drug addictions can recover from their disease..

Nicotine Recovery Services

Lifeline Connections supports reduction and cessation of nicotine use and dependence through education, prescribed medicine and social support.

Adult Recovery House: 0	Youth Recovery House: 0
Adult Long-Term Residential: 0	PPW: 0

Funding Sources Accepted:

ADATSA, Disability Lifeline, Treatment Expansion, Insurance, Private Pay, and Tribal Funding

Client Focus

Adult Men & Women, Native American

Specific Strengths of Agency

1. We continually examine, evaluate and improve the methods we use to respond to the needs of our patients and our community.
2. We seek to identify new ways of providing the best possible service on a continual basis.
3. We are solution-oriented - individually and collectively responsible for carrying out our mission.
4. We create a work environment which encourages innovation and is open to creative approaches to accomplishing our mission
5. We are committed to professional growth through training, education and self-improvement.
6. We endeavor to maintain the highest ethical standards throughout our organization.
7. We conduct and promote activities that reduce the stigma of chemical dependency.

Specific Admission Criteria

Olalla Recovery Center uses the DSM IV and ASAM PPC for patient admission. Admission also includes the patient's ability to meet the following criteria:

1. Progression of the patient's disease does not prohibit patient from benefitting from treatment at the appropriate level of care.
2. Patient's living environment and support base of family and/or significant other is conducive to recovery at the appropriate level of care.
3. Patient's physical and emotional level of dysfunction from his/her chemical use does not inhibit him/her from benefitting from treatment.
4. Patient's capacity and motivation are conducive to achieving and maintaining abstinence from chemical use at the appropriate level of care.

Specific Admission Exclusions

Our well-trained staff will evaluate each patient's history to determine if they are appropriate for our treatment program and ASAM Level 3.5 treatment. Patients admitted to our facility may not be a sex offender, an arsonist, or have a significant violent criminal history.

Clients the Program Will Consider With Case Consultation

All patients seeking admission will be considered for appropriateness using DSM IV and ASAM Level 3.5 criteria.

Other Services Available

Inpatient/Residential Treatment for adults over age 18, Sub-Acute Detoxification (starting in Spring 2013, private pay), yoga, meditation, acupuncture, Native American practices, gender specific groups, evidence-based curriculum. Outpatient services for adults and youth over age 13.

Brief Description of Treatment Philosophy

Alcoholism and other drug addictions constitute a primary, chronic disease with genetic, biological, psychological and environmental factors influencing its development and manifestations. The disease is progressive and fatal if untreated. Like any other illness, chemical dependency must be treated by skilled professionals. Since 1969, we have successfully treated all aspects of this disease, including the needs of special populations. At Olalla Recovery Centers, we provide the means to achieve and maintain abstinence. Patients are respected, their confidentiality is observed and understanding extended to them during this difficult time.

Nicotine Recovery Services

At Olalla, smoking is restricted to certain times and in a designated smoking area. We offer education, information and counseling to those in need of nicotine recovery services. The Tobacco Quitline is used to supply patients with nicotine replacement therapy (NRT).

Client Focus

Pregnant and Parenting Women

Specific Strengths of Agency

Comprehensive services to pregnant and parenting chemically dependent women and their children.

Specific Admission Criteria

Must be pregnant or have parental rights to a child less than 18 years of age. If the patient's child/children cannot accompany her into treatment at time of admission, she must be working towards reunification while in treatment.

Specific Admission Exclusions

Each referral evaluated on a case by case basis

Clients the Program Will Consider With Case Consultation

Accepts co-occurring disorders.

Other Services Available

Case management, nursing services, on-site therapeutic child care, mental health referrals and follow-up, referrals for domestic violence and sexual abuse, on-site parenting classes, life skills training.

Brief Description of Treatment Philosophy

Perinatal Treatment Services is committed to offering chemically dependent women comprehensive services from qualified staff. Our focus is on total abstinence from drug and/or alcohol use. In addition to chemical dependency, issues surrounding codependency and family issues, abuse and domestic violence will be addressed. Education in the areas of self-esteem, parenting, coping and living skills will be part of the treatment program.

Perinatal Treatment Services offers residential services to pregnant and parenting women and their children. If space is available, non-parenting women may be enrolled.

Perinatal Treatment Services believes that treating the child is equally as important as treating the woman. We implement a family support model that emphasizes:

- Equal attention be given to children's treatment as well as the mother's
- The child and mother receive treatment as a unit.
- Individual differences are valued and encouraged.
- Treatment will take place in a safe, consistent and supportive environment

Nicotine Recovery Services

All PTS programs provide Smoking Cessation intervention including nicotine patches. PTS facilities are all tobacco-free environments.

Clients the Program Will Consider With Case Consultation

Potential exclusionary criteria could include individuals who are medically unstable, individuals who are an imminent danger to themselves or others, a known sexual predator, individuals who are verbally and/or physically abusive or actively assaultive or individuals who have a history of arson.

Other Services Available

A mental health therapist and a chemical dependency professional provide treatment groups and individual therapy focusing on stabilization and recovery. Additional services include: psychiatric services, community coordination, case management, consultation with registered dietitian as needed, therapeutic activities including social and independent skill development, educational activities including mental health, physical health, medication and nutrition, socialization and other recreational activities.

Brief Description of Treatment Philosophy

Pathways provides a safe, therapeutic community setting where staff and clients work together to achieve behavioral change and new thinking patterns to support wellness, self-control, and recovery from mental health and substance abuse problems.

The community regulates itself to ensure the physical and emotional safety of all members.

The community regulates itself to ensure that the rights of all clients are supported.

The community regulates itself to ensure that each member can access treatment activities, including the social environment, and can engage in treatment without interference from disruptive behaviors, threats of harassment.

Activities in the residence and visits outside are planned to focus on and support individualized treatment plans for change that reflects each client's needs for stabilization and preparation to successfully engage in continued treatment.

The community creates schedules for meals, treatment groups, and other activities that allow efficient and safe operation of the facility for all community members.

The facility is regulated to provide an environment and model for the opportunity to experience healthy and moderate lifestyle including physical activity, diet, and social learning.

The individual needs, dignity and privacy of each community member are respected and protected to support the opportunity for choice and growth for all members.

Client Focus

Pregnant and Parenting Women

Specific Strengths of Agency

Comprehensive services to pregnant and parenting chemically dependent women and their children.

Specific Admission Criteria

Must be pregnant or have parental rights to a child aged 5 years of age or less. If the patient's child/children cannot accompany her into treatment at time of admission, she must be working towards reunification while in treatment.

Specific Admission Exclusions

Each referral evaluated on a case by case basis

Clients the Program Will Consider With Case Consultation

Accepts co-occurring disorders.

Other Services Available

Case management, nursing services, on-site therapeutic child care, mental health referrals and follow-up, referrals for domestic violence and sexual abuse, on-site parenting classes, life skills training.

Brief Description of Treatment Philosophy

Perinatal Treatment Services is committed to offering chemically dependent women comprehensive services from qualified staff. Our focus is on total abstinence from drug and/or alcohol use. In addition to chemical dependency, issues surrounding codependency and family issues, abuse and domestic violence will be addressed. Education in the areas of self-esteem, parenting, coping and living skills will be part of the treatment program.

Perinatal Treatment Services offers residential services to pregnant and parenting women and their children. If space is available, non-parenting women may be enrolled.

Perinatal Treatment Services believes that treating the child is equally as important as treating the woman. We implement a family support model that emphasizes:

- Equal attention be given to children's treatment as well as the mother's
- The child and mother receive treatment as a unit.
- Individual differences are valued and encouraged.
- Treatment will take place in a safe, consistent and supportive environment

Nicotine Recovery Services

All PTS programs provide Smoking Cessation intervention including nicotine patches. PTS facilities are all tobacco-free environments.

ADATSA, Treatment Expansion

Client Focus

Prosperity Wellness Center (PWC) is a long term residential chemical dependency program specially designed for adult women; those needing recovery skills, environmental support, and personal empowerment.

Specific Strengths of Agency

Our primary focus is for chemical dependency recovery, and we address the following substances with general education, group problem solving dynamics, and weekly individual sessions: methamphetamine, cocaine, heroin, alcohol, marijuana, nicotine, and other substances that may be a dependency or abuse issue. We view nicotine as a primary drug of choice and leading cause to relapse for other substances as well as a primary health care issue; therefore, PWC is a tobacco free environment.

Specific Admission Criteria

For entry, a contact with Penny Bissenas, our admissions coordinator must be made with information of DSHS eligibility. She can be reached at our parent facility, Prosperity Counseling & Treatment Services, Inc. 253-863-9667; her fax number for review of referral information is 253-863-6516.

The following needs must be met for financial obligation and medical stabilization:

1. Current medical coupon through DSHS, must be TANF/CNP or Pregnancy/CNP
2. Referral from Treatment Provider, CSO, CPS, Personal/Self referral, Physician, Attorney, GAL, or other concerned person (assessment is recommended, but not necessary if chemical dependency issue is verbally reported)
3. If entering with a child, a current medical coupon and proof of immunizations, social security, and proof of custodial rights.

Specific Admission Exclusions

None noted

Clients the Program Will Consider With Case Consultation

Women with more than 1 child

Other Services Available

None noted

Brief Description of Treatment Philosophy

We additionally address parenting and child development with as much emphasis as we do the dependency issue. Parenting is a difficult job, and for women with substance dependency, possible relationship violence or aggression, mental health components from trauma histories, and other historical factors, it can be overwhelming. Our in-house therapeutic childcare center is designed to advance the children's' individual domains of growth and development. Mothers learn basic child development and relational bonding & attachment needs in the educational and process groups led by the therapeutic childcare director. Our staff is familiar with high-risk infants and utilizes information from the Kent PIC unit. University of Washington's NCAST trainings are also utilized for our parenting support.

We work closely with the Division of Children and Family Services, as we understand the goal for safe, productive reunification of these families. We also work closely with drug courts and various judicial systems to support reconciliation from the destruction caused by behaviors of chemical dependency. PWC maintains a "personal responsibility" view of the recovery process.

Adult Recovery House: 0	Youth Recovery House: 0
Adult Long-Term Residential: 0	PPW: 0

Funding Sources Accepted:

Private Insurance, Self-pay, DBHR, Medical Coupons and CDDA

Client Focus

Youth chemical dependency intensive inpatient and outpatient services.

Specific Strengths of Agency

Ryther has a comprehensive staff team that allows our clients to access services for psychiatry, psychological evaluations, behavior modification and mental health therapy, in addition to individual and group chemical dependency counseling. Our programs include DBT influenced groups and sessions, Experiential Therapy, Cognitive Behavioral Therapy, Motivational Interviewing, family centered treatment and individualized treatment planning.

Specific Admission Criteria

For our level III.5 intensive inpatient program, we accept adolescent males between the ages of 12-18 years old. To be admitted, the applicant must have:
An assessment that places him at a III.5 level of care
A negative TB test and a physical within the last 6 months
A completed Ryther CDIP application
For our CD assessments and outpatient programs we accept private pay and insurance clients only.

Specific Admission Absolute Exclusions

Suicide attempt within the last 90 days

Clients the Program Will Consider With Case Consultation

Significant mental health issues, history of fire setting, history of assault, history of sexual aggression

Other Services Available

Chemical dependency assessments, Level I outpatient, level III.5 intensive inpatient, outpatient co-occurring program, outpatient mental health therapy, group care enhancement

Brief Description of Treatment Philosophy

As a leader in behavioral health services for youth and their families, we believe that our innovative, effective therapies can help youth and their families lead better lives. Ryther uses experiential learning activities and evidence-based/ best practices to nurture healthy youth and stronger families. We include the whole family within our interdisciplinary approach. Ryther offers and develops safe places and opportunities for youth and families to heal and grow so that they can reach their highest potential.

Nicotine Recovery Services

Ryther is a tobacco-free environment. We address nicotine addiction with patients in our treatment program and provide information and support regarding the cessation of nicotine use. Our agency offers services that address nicotine use and addiction by staff. Namely, our health insurance provider has a specific program for the treatment of this issue. Additionally, we offer other resources for support, such as the 'Quit-line' and peer support.

Client Focus

Adult residential treatment services for up to 180 days.

Specific Strengths of Agency

We are comprehensive health care organization; we specialized in providing services to low income and people of color. The focus of this program is in helping clients to increase the vocational rehab skills to return to the work force and to establish a permanent housing while they are able to stay clean and sober.

Specific Admission Criteria

A comprehensive ADATSA evaluation of the patient, from either the referring agency or a free standing evaluation agency. A maximum of 4 day supply of medication with new prescriptions to be filled by our pharmacy. TB test results and medical coupon.

Specific Admission Exclusions

No convicted sex offenders due to co-ed facility.

Clients the Program Will Consider With Case Consultation

All referrals will be screened prior to admission. Any medical and or medication concerns will be consulted with our medical clinic to ensure this is the appropriate setting for the patient. Patients with psychiatric history or taking certain medications will be considered in a case by case basis.

Other Services Available

Nutrition screenings. Case management: specifically housing placement and vocational-employment needs.

Brief Description of Treatment Philosophy

SeaMar Des Moines Recovery Center philosophy is consistent with the belief that chemical dependencies, including alcoholism, are disease, and services are provided consistent with RCW 70.96A.011. The philosophy and objectives of chemical dependency treatment is total abstinence, IAW WAC 388-805(4).

Nicotine Recovery Services

We have had smoking cessation series of classes with our in-house health educator. Each series consist of 6 two hour classes to occur once a week, so the client is engaged on this activity for 6 weeks. During the classes the clients are offered individual sessions and free nicotine patches or gum. Internal resources include: Health Educator and Social Worker, which have access to free nicotine patches and gum, and can also provide individual sessions or refer them to appropriate services.

Client Focus

Co-occurring adolescent males ages 13 to 17, Level 2 Secure Facility, culturally inclusive with emphasis on ethnic minorities and low income populations.

Specific Strengths of Agency

Sea Mar Renacer is inclusive and reflects cultural sensitivity toward people of color, the disabled and low income populations. We provide culturally relevant treatment via our mostly bilingual and bicultural staff. We emphasize the importance of the family's role in our youths' addictions and provide education and counseling with this focus. Renacer is passionate toward providing integrated treatment with an emphasis on the utilization of the most efficacious therapeutic techniques such as Motivational Interviewing and Dialectical Behavioral Therapy. Our ongoing collaborative relationship with the University of Washington has provided valuable consultation and training. Renacer works closely with our outpatient mental health clinic (in same building) toward holistically addressing substance abuse and mental health issues.

Specific Admission Criteria

A comprehensive chemical dependency assessment/evaluation completed no more than 6 months prior to referral to this program. Recent TB test completed.

Specific Admission Exclusions

Level II sex offenders and clients diagnosed with severe mental illness.

Clients the Program Will Consider With Case Consultation

We will consider all co-occurring and non-co-occurring referrals that don't meet exclusionary criteria.

Other Services Available

Renacer provides comprehensive mental health screenings, evaluations and counseling. We emphasize evidence based practices and provide ongoing training to staff and clients. Our on-site school is a charter classroom within the Seattle School District and allows our youth to gain school credit. Sea Mar is a multi service organization which allows our youth tremendous access to medical, dental and the aforementioned mental health services.

Brief Description of Treatment Philosophy

We strive to achieve permanent changes by treating not only the adolescent's chemical dependency, but also addressing other life issues with a holistic approach. The holistic approach takes into account his/her behavior, emotions, attitudes, culture, family, physical/mental health, dental needs and their overall lifestyle.

Nicotine Recovery Services

All patients receive education on nicotine addiction. In Fall 2006, Renacer will also provide a smoking cessation class for interested youth.

Specific Admission Exclusions

Males, 18 year old females or under 13 year old females

Clients the Program Will Consider With Case Consultation

Each client will be considered on a case-by-case basis.

Other Services Available

Mental Health Professional on staff, Family therapist that provides workshops for families and 1x1 sessions, complete medical, dental, and vision services provided. Self help groups focusing on AA meetings and community sponsors.

Brief Description of Treatment Philosophy

Sea Mar/Visions believe addiction is a disease that is chronic progressive and fatal. We apply the 12 step model as the base of our treatment modality pyramid. We believe youth need to be respected and their work geared toward their age group. We try to individualize each youth's treatment program and address their issues. We are committed to providing comprehensive health and human services to our clients.

Nicotine Recovery Services

SeaMar/Visions is a tobacco free environment. Nicotine is treated as an addiction along with drugs and or alcohol. The use of DBT Skills is taught and prompted for use. No one is allowed to use tobacco products on Sea Mar/Visions property or on outings.

Client Focus

Behavior modification

Specific Strengths of Agency

Provide employment training component on volunteer basis. Accommodations for patients' children from birth to age 12.

Specific Admission Criteria

Persons age 18 and above with alcohol/drug or alcohol/drug related problems.

Specific Admission Exclusions

Sex offenders and violent offenders

Clients the Program Will Consider With Case Consultation

Persons with history of mental illness would be required to provide copy of recent psychiatric evaluation and persons with extensive medical problems will be required to provide a physical.

Other Services Available

Job training program. Transitional housing following completion of long term care to include work and/or educational counseling on as needed basis.

Brief Description of Treatment Philosophy

Seadrunar believes that in order for a person to recover from addiction they must resolve past emotional issues and develop self-discipline, maturity and positive decision making and coping skills. Seadrunar teaches the patient how to change their negative lifestyle into a positive lifestyle which includes self esteem, self worth, good values, and genuine care for self and others.

Nicotine Recovery Services

Smoking permitted outside in designated area during designated breaks. SeaDruNar implements the Free and Clear program to assist nicotine-using patients in recovering from nicotine abuse or addiction.

Adult Recovery House: 0	Youth Recovery House: 23 Youth Beds (17 public, 4 private funds)
Adult Long-Term Residential: 0	PPW: 0

Funding Sources Accepted:

Youth, Private Funds

Client Focus

Provide recovery house services and stabilization treatment to youth who need these services after completing residential or intensive inpatient treatment.

Specific Strengths of Agency

This unit is youth specific and only admits youth; therefore the program is youth specific. The size of the unit is small.

Specific Admission Criteria

Referral from an inpatient treatment program following completion of a structured treatment program.

Specific Admission Exclusions

We will admit level two youth, provided their mental health issues are treatable with medications or will not interfere with the patient's ability to participate in treatment successfully.

Clients the Program Will Consider With Case Consultation

All patients will be considered for admission after consultation via phone from any referring source.

Other Services Available

Treatment approach is designed to motivate patient and to act as a supportive environment following inpatient treatment.

Brief Description of Treatment Philosophy

Recovery requires: total abstinence from all mind altering drugs; replacing self-defeating behaviors with healthy ones; learning healthy personal and social skills; and development of self respect and personal well-being.

Nicotine Recovery Services

Specific Strengths of Agency

Full continuum of care including medical detoxification

Specific Admission Criteria

Call the admission's department. This is a tobacco-free facility, which means no smoking/chewing allowed inside or outside of the facility.

Specific Admission Exclusions

None

Clients the Program Will Consider With Case Consultation

Patients with co-occurring disorders

Other Services Available

Adolescent services. All inpatient services. Intensive outpatient. Aftercare. Relapse prevention. Monitor and Abuse groups.

Brief Description of Treatment Philosophy

Our programs are based on the principle that each person's needs are unique, and services must be coordinated in order to support and sustain recovery.

Nicotine Recovery Services

Providence St Peter Chemical Dependency and its grounds are nicotine free and has been nicotine free for 15 years. We consider nicotine a drug just like cocaine, heroin, alcohol, etc. Our goal for our patients is that when they leave treatment, they will have the life skills and tools they will need for long term holistic recovery nicotine included. Inpatient and detoxification patients can receive nicotine patches and nicotine gum.

Client Focus

Sundown M Ranch accepts adult and youth who are diagnosed with alcoholism/chemically dependency according to DSM IV criteria that can be reasonably accommodated in an ASAM level 3.5-treatment setting.

Specific Strengths of Agency

Sundown M Ranch has the ability to provide Individualized alcoholism / chemical dependency treatment for adults and youth in a comfortable environment with a credentialed and caring staff based on thirty-nine years of experience.

Specific Admission Criteria

Persons who are diagnosed with alcoholism / chemically dependency using the DSM IV and who meet the medical requirements of ASAM 3.5 treatment. The person must also be able to follow a structured program in a caring environment designed to promote personal change.

Specific Admission Exclusions

All prospective patients are reviewed by a well-trained professional staff keeping in mind the best interest, safety, and appropriateness of the person applying for ASAM Level 3.5 treatment.

Clients the Program Will Consider With Case Consultation

Any person applying for treatment will be considered and evaluated for appropriateness for admission to Sundown M Ranches ASAM 3.5 level of care.

Other Services Available

Intensive inpatient treatment for adults and youth – Outpatient treatment - Youth Recovery House-Relapse specific group - Gender specific elders groups – Pregnant Post Partum group – Voluntary Nicotine Cessation group – Three day Family Program – Assessments for youth and adult – Full time facility Chaplin

Brief Description of Treatment Philosophy

Sundown M Ranch approaches alcoholism / chemical dependency as a treatable disease that is primary, progressive, chronic, and prematurely fatal if not intervened on in an appropriate level of care. Sundown M Ranch believes this must be done in a caring environment that promotes acceptance of personal change and well-being for the patient.

Nicotine Recovery Services

Sundown M Ranches Youth facility is a nicotine free environment. The adult facility offers a voluntary nicotine cessation program to assist patients in recovery from nicotine use. Designated areas are available for patients who continue to use nicotine products.

Adult Long-Term Residential: 0	PPW: 0

Funding Sources Accepted:

ADATSA, Treatment Expansion, CJTA, Insurance and Private Pay
--

Client Focus

Patients learn to self-evaluate in order to make change

Specific Strengths of Agency

Our philosophy base is choice theory. We use this cognitive behavioral model to help clients change their behavior. The Center does not automatically discharge clients for inappropriate behavior. We work to help them evaluate and change their behaviors.

Specific Admission Criteria

Meeting ASAM criteria for this level of care.

Specific Admission Exclusions

Users of Ritalin, Benzodiazapines, and narcotic pain medication will be evaluated on a case-by-case basis.

Clients the Program Will Consider With Case Consultation

Mental health issues and medications associated with their mental health disease.

Other Services Available

8 Detox beds and outpatient. The Center makes referrals to Oxford housing, PIC, DVR, consumer counseling services and other agencies in the area.

Brief Description of Treatment Philosophy

The agency's Intensive Inpatient Program is based on William Glasser's theoretical constructs, Choice Theory and Reality Therapy. We believe that addiction is a disease process, but in order to place the disease into remission, the addictive behavior must be changed. Since the etiology of addiction varies, behavior is the best common denominator. We teach that all behavior is need fulfilling, and stems from the basic needs of love and belonging, power, freedom, fun and survival. The counselors work with their patients to evaluate current behaviors and develop new behaviors to get their needs met. There is also a emphasis on developing an internal locus of control rather than external. Patients attend chemical dependency self-help support groups while in treatment based on choice theory. Other self-help groups, including AA, NA and CT are introduced.

Nicotine Recovery Services

We provide smoking areas for patients and staff that are within the state guidelines for the State of Washington Smoking Regulations Ban. We do not have specific groups designated for smoking cessation at this time, however we do have information and resources available for patients that want to quit smoking. We also have designated non-smoking areas. We do have non-smoking staff that would be available for support to employees that would like to quit smoking, Tobacco Quit Line information, and we participate in the Great American Smoke Out yearly. We have information cards for the Tobacco Quit Line that we hand out to the patients that if eligible will supply nicotine patches and weekly contacts for support.

None noted

Clients the Program Will Consider With Case Consultation

Sex offenders, arsonists, people with a violent history, and those on methadone will be considered on an individual basis.

Other Services Available

Triumph Treatment Services has comprehensive outpatient/aftercare and housing.

Brief Description of Treatment Philosophy

Consistent with chemical dependency is a disease, including alcohol. We provide treatment and family support to those affected by the disease. Our goal is to be responsive to the community of Yakima and the state of Washington so that people in need of service do not fall between the cracks.

We believe the disease is treatable and we offer a continuum of care including inpatient, outpatient, relapse prevention and support, education, therapy, and referral to family members of our patients. We consider the whole person and his/her needs. We provide intensive case management to assist the individual in addressing areas of their life that will assist in the achievement of a happy, healthy and productive life. We assist persons who have relapsed to return to recovery.

Nicotine Recovery Services

At JOTC, Patient smoking is done in a designated area on their time. Staff smoking is done in another designated area. A nicotine lecture is provided on a four week schedule, and the Tobacco Quit Line is available to patients wishing to discontinue nicotine use and obtain nicotine replacement therapy (NRT). Our management is supportive of any individual who makes an effort to quit tobacco use.
